

RenewX 2019 intends to accelerate the growth of the Renewable Energy sector in South India region and contribute to the country's sustainable economic development.

The Expo aims to provide an excellent platform for Stakeholder's networking to capitalize and penetrate into the lucrative South Indian market and Accelerate growth agenda for the future.

About Solar Skills Competition:

UBM, India in association with Skill Council for Green Jobs launched the "Solar Skilling Competition" in Renewable Energy India, Expo in September 2017. The competition focuses on Health & Safety aspects of workmanship, accuracy & installation procedures. The event embarked upon competitive and quality learning in this sector; and also showcased industry's commitment towards "Skill India" mission, A Government of India Initiative.

About SCGJ

Skill Council for Green Jobs (SCGJ), under the aegis of National Skill Development Corporation (NSDC) and Ministry of Skill Development & Entrepreneurship, Government of India; has introduced a market driven system of skilling for technicians, engineers and managers working in the Solar PV industry and has brought out various National Occupational Standards for job roles in the solar domain.

SCGJ is partnering with the Industry and renowned training institutions to roll out sector specific job roles.

Brief of Activities Undertaken:

- Technical briefing by the Eminent Jury Comprising SCGJ & Multiple Industry Stakeholders.
- Identifying proper protective Equipments/tools
- Install the Solar Panels; Connect the PV, Inverter and Batteries. Post completion of Installation the team has to Commission the system by Powering a Load.
